### PennHIP Report

Referring Veterinarian: Dr Steve Jacobs	Clinic Name: SportsVet Animal Medical Center
Email: sportsvetamc@gmail.com	Clinic Address: 1105 N. Dunlap Savoy, IL 61874
	Phone:
	Fax:

### Patient Information

Client: PROBST, KRISTINE	Tattoo Num:
Patient Name: DUNBAR'S TITAN	Patient ID: 44035
Reg. Name: DUNBAR'S TITAN	Registration Num: PR24901305
PennHIP Num: 194981	Microchip Num:
Species: Canine	Breed: STANDARD POODLE
Date of Birth: 04 Nov 2021	Age: 23 months
Sex: Male	Weight: 58.4 lbs/26.5 kgs
Date of Study: 23 Oct 2023	Date Submitted: 23 Oct 2023
Date of Report: 24 Oct 2023	

### Findings

Distraction Index (DI): Right DI = 0.36, Left DI = 0.35.
Osteoarthritis (OA): <b>No radiographic evidence of OA for either hip.</b>
Cavitation/Other Findings: No cavitation present.

### Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.36.

OA Risk Category: The DI is between 0.31 and 0.49. This patient is at mild risk for hip OA.

Distraction Index Chart:

**BREED STATISTICS:** This interpretation is based on a cross-section of 6335 canine patients of the STANDARD POODLE breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.28 - 0.68) for the breed. The breed average DI is 0.46 (solid square). The patient DI is the solid circle (0.36).

**SUMMARY:** The degree of laxity (DI = 0.36) falls within the central 90% range of DIs for the breed. This amount of hip laxity places the hip at a mild risk to develop hip OA. **No radiographic evidence of OA for either hip.**
